

Carlos E Sierra

Front End Engineer (React / Next.js / TypeScript)

Melbourne, VIC · Australian Citizen

carlosesierra@gmail.com · carlosesierra.com.au · github.com/carlosesierra · linkedin.com/in/carlosesierra

hello!

Front End Engineer specialising in React, Next.js and TypeScript with experience delivering responsive, accessible and maintainable web applications. Experienced in content-driven architecture using Sanity as a headless CMS and focused on clean component design, performance and practical product delivery.

Core Skills

- React, Next.js (App Router), TypeScript, JavaScript (ES6+)
- HTML5, CSS3, SCSS, Tailwind CSS, Bootstrap
- Component-driven UI and reusable layout systems
- Sanity (Headless CMS), content modelling, API integration
- Accessibility (WCAG-aware) and Core Web Vitals fundamentals
- Testing: Jest, React Testing Library, Cypress (basic)
- Git, GitHub, npm, Vite, CI/CD exposure, Vercel deployments
- GSAP (UI animation)

Selected Projects

- Venezuelan Association of Australia (VAA) (Next.js + TypeScript + Sanity)

Production website with structured content modelling, dynamic event listings and reusable components.

Integrated Sanity CMS with Next.js and deployed via Vercel.

Professional Experience

MADE THIS (Senior Front-End Developer) - Dec 2023 - Jan 2025

- Delivered modern React/Next.js web apps with responsive interfaces and maintainable component patterns.
- Worked closely with designers and backend services to implement and refine product features.
- Improved front-end delivery standards and shared reusable patterns with the team.

eg+ worldwide (Senior Front-End Developer) - Jan 2018 - Dec 2023

- Built reusable React/TypeScript components at scale, created internal automation tools reducing release time ~50%.
- Collaborated with cross-functional teams to translate brand/design systems into scalable front-end patterns.

Earlier Contract Roles / Freelance (Jetstar, Open Universities Australia, Myer, DT Digital, XN Australia)

Delivered front-end and email experiences, built responsive UI and landing pages.
